PRODUCT GUIDE

SMART Board™ 885ix

interactive whiteboard system

Experience true collaborative learning with the SMART Board 885ix interactive whiteboard system. The 885ix offers users an extraordinarily natural learning experience that makes it easy to interact with lesson content. It enables two users to instantly start working on lesson activities at the same time, allowing each user to work in a way that is intuitive to them.*

In a class of its own

As part of the 800 series, the 885ix represents a new class of interactive whiteboard. This interactive whiteboard system features a powerful SMART Board interactive whiteboard, the SMART UX60 ultra-short-throw projector, an extended control panel and a modular Pen Tray. This combination delivers a precise and intuitive touch experience along with stunning image quality and an interactive widescreen surface for teaching and learning. And because it's an integrated system, it's easy to control and manage your classroom technology.

Truly collaborative learning

With the 885ix, two users can work on a lesson at the same time, anywhere on the interactive whiteboard.* Each user can use a finger or a pen to simultaneously write, draw and manipulate content in SMART Notebook™ collaborative learning software. The system doesn't require a separate multiuser mode, so teachers can enable collaboration instantly. A user can also write with a pen, erase with a palm and move objects with a finger.

More magical moments

Lessons are interactive and energetic with the 885ix. You can use simple, intuitive touch gestures* to toss, rotate or zoom in on objects in SMART Notebook software, or access other applications in Windows 7 or Mac Snow Leopard.

The magical touch experience of the 885ix means that you can interact with your lessons and multimedia quickly and easily – without having to access on-screen menus.

- 1** Extended control panel – a panel that provides centralized control over classroom technology
- 2** SMART UX60 projector – an integrated, ultra-short-throw WXGA (1280 x 800) projector with a 16:10 aspect ratio. The SMART UX60 has a 12" (30.5 cm) optical throw distance to the interactive whiteboard
- 3** SMART Board interactive whiteboard – a multiuser interactive whiteboard that enables two users to simultaneously write, erase and manipulate content
- 4** Modular Pen Tray – the advanced Pen Tray automatically detects tool modes. The Pen Tray also has two wings on the side that allow you to add accessories.

Key features

Multitouch experience

Two users can simultaneously write, perform mouse functions, erase, and manipulate and move objects on the interactive whiteboard surface – and no special tools are required.

Freestyle interaction*

The system enables two users to instantly start working together without having to switch into a separate multiuser mode or work in a confined area. And each user can individually complete actions, like writing in digital ink or moving objects with their fingers.

Object awareness

The 885ix uses cameras to identify when a user switches between using a finger, pen and eraser. A user can also write with a pen, erase with a palm and move objects with a finger, without having to press buttons, access on-screen menus or replace tools in the Pen Tray.

Touch gestures*

Use simple, intuitive hand and finger gestures to toss, rotate or zoom in on objects and interact within SMART Notebook software. The 885ix has built-in support for multitouch operating systems like Microsoft Windows 7 and Mac Snow Leopard.

SMART Ink

Discover a natural, responsive and accurate writing experience with SMART Ink. It smoothes out the appearance of the digital ink, which improves the legibility of your handwriting as you write over applications, websites and videos. The ink becomes an object that you can move and manipulate.

Superior image quality

The SMART UX60 projector uses BrilliantColor™ technology from Texas Instruments™ to produce high levels of brightness and contrast. Video, data and lesson files will look crisp and bright from every position in the room.

Network-enabled projector

Connect the SMART UX60 projector to your school's IP network to send and receive commands to and from the web server or SNMP client. As a networked interactive whiteboard system, the 885ix has asset management features that enable you to control and manage the projector remotely.

Long-lasting lamp

The SMART UX60 lasts for 3,000 hours in standard mode and 4,000 hours in economy mode.

Warranty

Get a three-year warranty on the SMART UX60 projector. The SMART Board interactive whiteboard has a five-year warranty upon product registration.

SMART Board™ 800i

interactive whiteboard system

Increase opportunities for teachers and students to work together on lesson activities with the SMART Board 800i interactive whiteboard system. It enables two users to instantly interact with lesson content, bringing extraordinarily natural collaboration to the classroom. The 800i is an all-in-one interactive whiteboard system that helps you manage your classroom technology.

In a class of its own

As part of the 800 series, the 800i represents a new class of interactive whiteboard. This multitouch system features a powerful interactive whiteboard and multiuser Pen Tray to enable true collaborative experiences. The 800i also includes the SMART UF65 projector, which reduces shadows and glare, and an extended control panel to help you control the system.

More opportunities to collaborate

Collaboration is a flexible and engaging experience with the 800i. Users can use their fingers or a pen to interact simultaneously on the system's surface to write, draw or manipulate lesson content. The system doesn't require separate user areas or a multiuser mode, so collaborative learning opportunities are always at your fingertips.

The system also recognizes when a user switches between using a pen, finger and eraser, so interacting with the 800i is a truly natural experience. The 800i features SMART's own DViT™ (Digital Vision Touch) technology, which uses cameras to distinguish between different actions and respond accordingly.

The magic of touch

Get hands-on with lessons with the touch gesture capabilities of the 800i. Using simple, intuitive hand and finger gestures, you can toss, rotate or zoom in on objects. You can also use touch gestures in Windows® 7 or Snow Leopard operating systems. With the 800i, a user can independently write with a pen, erase with a palm or move objects with a finger – there's no need to access on-screen menus.

- 1** SMART Board interactive whiteboard – a multiuser interactive whiteboard that enables two users to simultaneously write, erase and manipulate content
- 2** SMART UF65 and UF65w projector – an integrated XGA (1024 x 768) projector that offers a 4:3 native aspect ratio and support for 16:9, 16:10 and 5:4 ratios
- 3** Extended control panel – a panel that enables you to control your multimedia devices
- 4** Multiuser Pen Tray – the advanced Pen Tray automatically detects tool modes

Key features

Multitouch experience

Two users can simultaneously write, perform mouse functions, erase, and manipulate and move objects on the interactive whiteboard surface – and no special tools are required.

Freestyle interaction*

The system enables two users to instantly start working together without having to switch into a separate multiuser mode or work in a confined area. And each user can individually complete actions, like writing in digital ink or moving objects with their fingers.

Object awareness

The 800i uses cameras to identify when a user switches between using a finger, pen and eraser. A user can also write with a pen, erase with a palm and move objects with a finger, without having to press buttons, access on-screen menus or replace tools in the Pen Tray.

Touch gestures*

Use simple, intuitive hand and finger gestures to toss, rotate or zoom in on objects and interact within SMART Notebook software. The 800i has built-in support for Windows 7 and Snow Leopard.

SMART Ink™

Discover a natural, responsive and accurate writing experience with SMART Ink. It smoothes out the appearance of the digital ink, which improves legibility as you write over applications, websites and videos. The ink becomes an object that you can move and manipulate.

Image quality

Experience high levels of brightness and contrast with the SMART UF65 and UF65w projector. The projector delivers 2,000 lumens and a 2,000:1 contrast ratio at a XGA (1040 x 768) resolution. The projector is designed to draw less than 1W of power in standby mode. Its true color quality enhances the crispness of video, images and websites from every position in the room, no matter the lighting conditions.

Widescreen option

The wide-format 885i system gives you 20 percent more working space than a standard interactive whiteboard – ideal for classrooms that use widescreen laptops and monitors. The widescreen option combines the SMART Board 885 interactive whiteboard with the SMART UF65w projector, which delivers a 16:10 aspect ratio and native WXGA (1280 x 800) widescreen resolution.

Network-enabled projector

Connect the projector to your school's network to remotely control and manage it through the web server or SNMP client. As a networked interactive whiteboard system, the 800i's asset management features enable you to control and manage the projector remotely.

Warranty

Get a three-year warranty on the SMART UF65 and UF65w projector. The SMART Board interactive whiteboard has a two-year warranty, which is extended to five years upon product registration.

SMART Board™ 800 series interactive whiteboard

Experience an extraordinarily natural way to interact with lessons with the SMART Board 800 series interactive whiteboard. It enables two users to start working on lesson activities simultaneously, using their fingers or a pen. With the 800 series, teachers and students can truly collaborate, making lessons more magical and interactive.

Hands-on collaboration

The 800 series represents a new class of interactive whiteboard. As a powerful, multitouch interactive whiteboard, the 800 series enables two users to simultaneously interact on the system's surface, while using different tools or their fingers to write, draw and manipulate lesson content. The interactive whiteboard doesn't have restricted user areas or a separate multiuser mode, so collaborative opportunities are always at your fingertips.*

The magic of touch

Use simple, intuitive hand and finger gestures to interact with your lesson content. The touch gesture* capabilities of the 800 series make it easy for you to toss, rotate or zoom in on lesson content, or control applications in Windows® 7 or Snow Leopard operating systems. A user can also independently write with a pen, erase with a palm or move objects with a finger – there's no need to access on-screen menus.

Rich in classroom resources

Find thousands of high-quality resources on the SMART Exchange™ website. The SMART Exchange features lessons made specifically for SMART products, including the 800 series – created either by SMART or by third-party developers.

Part of the SMART classroom

The 800 series has a modular design, making it easy to add additional technology and accessories, like SMART projector controls. The interactive whiteboard also integrates with the SMART Document Camera™ and SMART Response™ interactive response systems. And accessories like the SMART mobile floor stand and wireless Bluetooth® connection mean that you can incorporate the 800 series into a variety of learning environments.

- 1** SMART Board interactive whiteboard – a multiuser interactive whiteboard that enables two users to simultaneously write, erase and manipulate content
- 2** Multiuser Pen Tray – the advanced Pen Tray automatically detects tool modes
- 3** DViT™ (Digital Vision Touch) technology – the 800 series uses cameras to distinguish between different actions and respond accordingly

Key features

Multitouch experience

Two users can simultaneously write, perform mouse functions, erase, and manipulate and move objects on the interactive whiteboard surface – and no special tools are required.

Freestyle interaction*

The system enables two users to instantly start working together without having to switch into a separate multiuser mode or work in a confined area. And each user can individually complete actions, like writing in digital ink or moving objects with their fingers.

Object awareness

The 800 series recognizes when a user switches between using a finger, pen and eraser. A user can also write with a pen, erase with a palm and move objects with a finger, without having to press buttons, access on-screen menus or replace tools in the Pen Tray.

Touch gestures*

Use simple, intuitive hand and finger gestures to toss, rotate or zoom in on objects and interact within SMART Notebook software. The 800 series has built-in support for Windows 7 and Snow Leopard.

SMART Ink™

Discover a responsive and accurate writing experience with SMART Ink. It smoothes out the appearance of the digital ink, which improves the legibility of your handwriting as you write over applications, websites and videos. The ink becomes an object that you can move and manipulate.

Save function

Capture your work to SMART Notebook collaborative learning software as a screen shot that you can edit, or save your notes directly into several software applications, including Microsoft Windows versions of PowerPoint®, Word and Excel®, Adobe® Acrobat® and AutoCAD® software.

Durable surface

The 800 series has a low-gloss surface that is optimized for projection. The surface is compatible with dry-erase markers and magnets and is easily cleaned.

Widescreen option

Enjoy more room to work. The wide-format 885 model gives you 20 percent more working space than a standard interactive whiteboard – ideal for classrooms that use widescreen laptops and monitors.

Warranty

The SMART Board 800 series interactive whiteboard has a two-year warranty, which is extended to five years upon product registration.

SMART Board™ 685ix

interactive whiteboard system

The 685ix is an integrated system that combines the following:

- A widescreen interactive whiteboard that provides 20 percent more space than a standard-sized interactive whiteboard
- An ultra-short-throw projector that virtually eliminates shadows, glare and distracting projector light
- An extended control panel that enables you to attach multimedia devices and start the system with one button
- Asset management features that allow the projector to be controlled and managed remotely through your IP network

The SMART Board 685ix interactive whiteboard system offers teachers and students an unparalleled classroom experience. As the world's first integrated system to combine an ultra-short-throw projector, a widescreen interactive whiteboard and an extended control panel, the 685ix provides extraordinary image quality and a large interactive surface for teaching and learning.

Get students' attention

Lessons are bolder and brighter with the 685ix. The ultra-short-throw SMART UX60 projector virtually eliminates shadows, glare and distracting projector light, ensuring that teachers aren't casting shadows and students aren't straining to see the lesson. The SMART UX60 is positioned directly above the interactive whiteboard, projecting crisp, bright images from only 12" (30.5 cm) away. With this projector, lessons will look vibrant and well-defined, with high levels of brightness, contrast and true-color quality.

Widen their perspective

Teachers and students have 20 percent more working space with the 685ix than they would have with a standard-sized interactive whiteboard system. The 685ix combines an ultra-short-throw projector, with a 16:10 aspect ratio and native WXGA (1280 x 800) resolution, and an 87" (221 cm) widescreen interactive whiteboard, making videos and images seem truer to life.

Create more flexibility

The system's extended control panel offers teachers more flexibility while ensuring students can interact with lessons. Teachers can easily add multimedia devices, such as document cameras, DVD players and digital cameras, to the 685ix. These devices can then be accessed and controlled right from the extended control panel.

The 685ix is also easy to protect and maintain. It includes a multi-axis, adjustable wall mount that makes projector alignment a snap, and its network-enabled SMART UX60 projector can be controlled and managed remotely.

- 1** SMART UX60 projector – an integrated, ultra-short-throw WXGA (1280 x 800) projector with a 16:10 aspect ratio. The SMART UX60 has a 12" (30.5 cm) optical throw distance to the interactive whiteboard.
- 2** Widescreen SMART Board interactive whiteboard – a touch-sensitive surface that offers 20 percent more working space than a standard-sized interactive whiteboard. It connects to your computer and projector and shows the computer's desktop image.
- 3** Extended control panel – a panel that provides centralized control over classroom technology

Key features

Touch Recognition

Write with a pen, erase with your palm and move objects with your finger – without having to access other tools, buttons or on-screen menus. With Touch Recognition, the interactive whiteboard does the switching for you automatically.

Virtually shadow and glare free

Compared to longer throw projectors that are mounted on ceilings or walls, the 685ix system's ultra-short-throw projector, the SMART UX60, creates virtually no shadows or glare.

Superb image quality

Experience superb image quality with the 685ix. The SMART UX60 projector uses BrilliantColor™ technology to produce visuals with true-color quality and high levels of brightness and contrast.

Distortion free

Attach a high-definition camcorder, Blu-ray Disc™ player or widescreen laptop to the extended control panel to give your students a true-to-life multimedia experience, without the distractions of letterboxing or distortion.

Switchable dual-USB port

The extended control panel has a dual-USB port that enables you to connect two computers to the SMART Board interactive whiteboard and easily switch between them as required.

Color decay resistant

The SMART UX60 projector is highly resistant to color decay, image degradation and tinting, so the image stays vibrant and sharp, even after years of use.

Network enabled

Connect the SMART UX60 projector to your school's IP network to send and receive commands to and from the web server or SNMP client. As a networked interactive whiteboard system, the 685ix has asset management features that enable you to control and manage the projector remotely.

Filter free

The SMART UX60 features a filter-free design, which ensures no filters need to be cleaned, maintained and replaced.

Long-lasting lamp

Be confident in the reliability of your projector lamp – the SMART UX60 lamp lasts for 2,500 hours in standard mode and 4,000 hours in economy mode.

Warranty

Get a three-year warranty on the SMART UX60 projector. The SMART Board interactive whiteboard has a five-year warranty upon product registration.

Comes with SMART Notebook™ software

The 685ix comes with award-winning SMART Notebook collaborative learning software.

Dual-user mode

This SMART Board interactive whiteboard is also available in a dual-touch model. With this model, two users can simultaneously write in their own separate workspaces in SMART Notebook software.

Specifications

SMART Board™ 600i

interactive whiteboard system

Dual touch

This SMART Board interactive whiteboard is also available in a dual-touch model. With a dual-touch SMART Board interactive whiteboard, teachers can switch seamlessly between single and dual-user mode in SMART Notebook™ collaborative learning software. When in dual-user mode, the interactive whiteboard has two separate work spaces, enabling two students to touch or write simultaneously on it.

The SMART Board 600i interactive whiteboard system combines an award-winning SMART Board interactive whiteboard, a 3D-ready SMART UF65 projector and an extended control panel. This integrated system adds flexibility and efficiency to the classroom by helping teachers easily access and control all multimedia devices from one location.

Enhance teaching experiences

With the 600i, teachers have centralized control over the SMART UF65 projector and classroom peripherals. The extended control panel enables teachers to easily attach multimedia devices, such as documents cameras, DVD players and digital cameras, to their interactive whiteboard. Devices can be conveniently controlled directly from the extended control panel.

The system has a sleek and integrated design that keeps the boom-mounted, short-throw projector out of the way, ensuring shadows and other distractions don't interfere with teaching and learning.

Simplify installation and maintenance

The 600i is easy to install, manage and protect. The projector is located directly above the interactive whiteboard, eliminating the need for complicated wiring or ceiling mounting. And since the system is networked, you can connect the projector to your school's IP network to remotely control and manage it.

Expand your work space

For classrooms that use widescreen laptops or monitors, the 600i is available in a wide-format option. Offering 20 percent more space, the 685i4 gives teachers extra room to work. It combines the 87" (221 cm) wide-format SMART Board 685 interactive whiteboard with the SMART UF65w, a projector with a 16:10 aspect ratio and native WXGA (1280 x 800) widescreen projector resolution.

- 1** SMART UF65 projector – an integrated XGA (1024 x 768) projector that offers a 4:3 native aspect ratio and support for 16:9, 16:10 and 4:5 ratios
- 2** SMART Board interactive whiteboard – a touch-sensitive interactive whiteboard that enables users to write either with their finger or a pen
- 3** Extended control panel – a convenient way to access and control multimedia devices and start the system with one button

Key features

Touch Recognition

You can write with a pen, erase with your palm and move objects with your finger without having to put the pen down to access other tools. The SMART Board interactive whiteboard automatically switches modes for you.

Network enabled

The projector is network enabled, so it can be connected to your school's IP network to enable commands to be sent or received through the web server or SNMP client.

Theft resistant

The projector is rendered inoperable if removed from the extended control panel or remote, while the Kensington® lock slot and projector padlock loop act as additional visual and physical deterrents.

Easy to maintain

The SMART UF65 projector is filter free, has a lamp life of 3,000 hours in standard mode and 5,000 hours in economy mode, and is resistant to color decay, image degradation and tinting, so the image stays sharp even after years of use.

Comes with SMART Notebook software

The 600i comes with award-winning SMART Notebook software.

Superb image quality

Experience superb image quality with the 600i. The SMART UF65 projector uses BrilliantColor™ technology to produce visuals with true-color quality and high levels of brightness and contrast.

Wide-format option

The system is available in wide format, providing 20 percent more working space.

Multiposition boom

At installation, the SMART UF65 projector and boom can be configured to accommodate multiple room sizes and SMART Board interactive whiteboard models, including the 560, 580, 660, 680 and 685.

Warranty

The interactive whiteboard comes with a five-year warranty upon registration. The SMART UF65 projector has a three-year warranty.

Durable

Durability is built into the SMART Board 600i interactive whiteboard system. The hard-coated polyester surface is tear proof and easily cleaned with any alcohol-free household glass cleaner or disinfected with a diluted bleach solution.

SMART Board™ 600 series

interactive whiteboard

“Young students and old thrive on the tactile experience of manipulating with their fingers. And I definitely appreciate being able to interact with the content – how could teaching and learning get any more hands-on?”

Katie Morrow, Technology Integration Specialist, O’Neill Public Schools, O’Neill, Nebraska, United States

Take your interactive experience to the next level. The SMART Board 600 series interactive whiteboard combines a flexible pen-and-finger system with exceptional ease of use. Adaptable, dependable and intuitive, the 600 series has a state-of-the-art design housed in a classic interactive whiteboard styling.

Enable hands-on learning

The key to the 600 series is touch. Our Touch Recognition feature allows you to write with a pen, erase with the palm of your hand and move objects with your finger without having to press buttons, access on-screen menus or replace tools in the Pen Tray.

Engage with ease

With a large touch-enabled surface, the SMART Board 600 series interactive whiteboard makes it easy to deliver dynamic lessons. You can present material using large, vibrant images and students can physically interact with lessons by moving letters, numbers, words and pictures with their fingers. In these and other ways, the 600 series meets the needs of both visual and kinesthetic learners.

Multiply learning potential with multimedia

Add flexibility to your curriculum with Internet access and multimedia resources. Explore a website, give a science presentation or take a virtual field trip right from the interactive whiteboard. With the ability to add different types of multimedia files to your lessons, you can make learning a dynamic experience.

Create compelling lessons

The 600 series interactive whiteboard comes with award-winning SMART Notebook™ collaborative learning software, which is the standard for creating, delivering and managing interactive lessons. SMART Notebook enables you to capture your work as a screenshot that you can edit, or save your notes directly into several software applications.

- 1** Touch-sensitive surface
- 2** USB connection
- 3** On-Screen Keyboard, right mouse and help buttons
- 4** Expansion slot
- 5** Pens
- 6** Eraser
- 7** Pen Tray

Key features

Touch Recognition

Write with a pen, erase with your palm and move objects with your finger without having to access additional tools, on-screen menus or buttons.

Dual-user mode

The SMART Board 600 series interactive whiteboard is also available in a dual-touch model. With this model, two users can simultaneously write in their own separate workspaces in SMART Notebook software.

Digital ink

Write in digital ink over applications, websites and videos.

Save function

Instantly capture and save notes.

Durable surface

Experience the durability of the hard-coated polyester screen. It's tear proof, optimized for projection, compatible with dry-erase markers and easily cleaned with whiteboard cleaner.

Active screen size

Select from three standard sizes or two widescreen formats.

Wall-mount bracket or floor stand

Install your SMART Board interactive whiteboard simply and securely.

USB cable and extenders

Connect the SMART Board interactive whiteboard to your computer.

Expansion slot

Use the expansion slot to add hardware upgrades to your SMART Board interactive whiteboard.

Comes with SMART Notebook software

The 600 series comes with award-winning SMART Notebook software.

Warranty

The SMART Board interactive whiteboard has a five-year warranty upon product registration and a two-year standard warranty.

Optional accessories

Floor stand

Mobile, height-adjustable floor stand that includes heavy-duty locking casters and stabilizing safety guards.

USB speakers

Two 15-watt, stereo-amplified speakers.
